

In the Drawings

The Examiner objected to the drawings under 37 CFR 1.83(a), stating that Fig. 3 does not show the fuse circuit included within the row decoder as recited in claims 3 and 13. Accordingly, Applicants have amended Fig. 3 to relocate the fuse circuitry within the row decoder.

A proposed Replacement Sheet for Fig. 3 is attached as Appendix A to this amendment to overcome the Examiner's objections, which complies in all respects with 37 CFR 1.121(d).
